

# Cardinal Computer Services

Sunday, August 24, 2008

Dear Cardinal Computer Customers:

Effective August 25, 2008, I have given my client list to Jared Durham with Professional I.T. Solutions. As many of you know I have moved out of the state and I am no longer able to support my customers here in the Treasure Valley. Some of you were aware of my plans to leave the valley and may have found a new computer tech, others may not have. I assure you that if you give Professional I.T. Solutions a chance you will be more than happy with their services.

I met Jared about a year ago through another business contact; Active Computer Solutions, who has also recently turned over his clientele to Jared and his team. I have spoken to him on the phone since my move and I feel comfortable referring my clients to him. I am very confident that he can provide you the best service possible.

A business card has been enclosed for your convenience. Professional I.T. Solutions offers a wide variety of services for both Small Business and Residential customers including Windows, Mac, & Linux support, Network support & Installation, Basic Web Design, Web Hosting, VoIP, PC & Laptop Support/Repair, Data Cabling, Data Backup & Recovery, Network Security, and much more.

Jared has a Bachelors degree in Computer Networking and has several IT Certifications including A+, Network+, is a Microsoft Certified Professional. More information can be found at [www.proitsolutionsonline.com](http://www.proitsolutionsonline.com) or [www.proitsolutions.us](http://www.proitsolutions.us). Cardinalcomputerservices.com will be updated shortly to reflect the changes, I am currently working with Jared to change ownership of the domain.

It has been a pleasure serving you over the years and I thank you for the opportunity and your business. If you have any questions feel free to contact Jared and his team at 208-514-3575 or [support@proitsolutionsonline.com](mailto:support@proitsolutionsonline.com), if need be he can contact me for further support.

Sincerely,

Eric Cutright  
Cardinal Computer Services  
President

And

Jared Durham
